The County of Los Angeles Department of Parks and Recreation - <http://parks.lacounty.gov/> prides itself in offering the residents and visitors of Los Angeles County with a wide range of programs, amenities, and activities. Our parks are here to serve you from Long Beach to the Antelope Valley, from Castaic to Hacienda Heights and across many other areas including East Los Angeles, South Los Angeles, the San Gabriel Valley, and beyond.

More than 23 million patrons enjoy our 184 parks each year. We have 5 Regional Parks with more than 500 acres each as well as 17 Community Regional Parks with more than 40 acres each in the County of Los Angeles.

Our Department has the mission to serve as stewards of parklands; to build healthy and resilient communities; and advance social equity and cohesion.

Our mission is to be a world-class Parks and Recreation organization.

As Los Angeles County Department of Parks and Recreation is welcoming all Special Events which provide a positive public service and meet a legitimate public need, we must ensure the integrity of these valuable resources so that all who visit in years to come will be able to enjoy it. It is our job to limit any potential expenses to the public that could result from the private use of the grounds for Special Events. Therefore, all costs associated with a special event are included in this process.

Depending on the size, type, program, and length of the Special Event, the following County and State Departments may require permits from the organizer/promoter of the Special Event in addition to Los Angeles County Department of Parks and Recreation:

Cal Trans, California Highway Patrol, Los Angeles County Fire Department, Los Angeles County Department of Health Services, Los Angeles County Department of Public Works, Los Angeles County Sheriff Department, Los Angeles County Department of Treasurer and Tax Collector, US Army Corps of Engineers, Los Angeles County Department of Animal Control, and Alcoholic Beverage Control

We have an internal group dedicated to support you through the permitting process with all other Departments. We provide location maps, technical specs, blank permit applications, contact lists, and master security/fire/traffic/clean-up plans as they may be and become available.
