4. In RFSQ, Appendix E – Sample PPA, **Section 12.0 - Net Energy Metering**, is deleted in its entirety and replaced with the following:

Section 12 – Net Energy Metering

The Parties acknowledge that the pricing assumes Net Energy Metering (NEM) 3.0 for the Initial Term. If Provider fails to submit interconnection applications by [X], or (ii) prior to the Commercial Operation Date, or Provider fails to keep such interconnection applications in good standing such that the System would not be eligible for NEM 3.0, Purchaser may terminate this Agreement with no liability whatsoever, including, but not limited to the Early Termination Fee. The foregoing shall not apply to the extent Provider's failure is caused by an act or omission by Purchaser in connection with Provider's submittal of interconnection applications.

Provided, however, that in the event of a change in Applicable Law that occurs after the Commercial Operation Date and results in a loss of NEM 3.0, Purchaser shall have no such termination right. Provided further that Purchaser shall ensure any correspondence with the Local Electric Utility regarding the tariff and changes to the interconnection agreement are promptly shared with Provider.
