STATEMENT OF WORK (SOW)

1.0 SCOPE OF WORK

Psychiatric Crisis Stabilization Units (CSU) are Medi-Cal certified and Lanterman-Petris-Short (LPS) designated units that provide rapid access to mental health and substance use evaluation and assessment, crisis intervention and medication support, 24 hours per day, 7 days per week (24/7). They also provide case management services for individuals experiencing a crisis. CSU services, including integrated services for co-occurring substance use disorders, are focused on stabilization and linkage to recovery-oriented, community-based resources. CSUs have been referred to as Psychiatric, Mental Health, or Behavioral Health Urgent Care Centers (UCCs) in Los Angeles County (County or LAC).

CSUs may be freestanding, CSU – Urgent Care Center (UCC), or CSUs may be associated with an emergency department, CSU – ED, also known as Emergency Psychiatric Assessment, Treatment and Healing (EmPATH) Units. For the purpose of this SOW, all these terms may be used interchangeably.

CSUs will accept each referral, offer walk-in and first responder drop-off options, and provide both a basic medical and targeted biopsychosocial assessment for individuals who walk in or are dropped off for services. If the CSU is ED based (e.g. EmPATH), then admission through the ED process would fulfill the walk-in or drop-off requirement. The CSU shall be capable of servicing all individuals in the context of a crisis including:

- 1.1 youth, adolescents, adults and older adults,
- 1.2 individuals with co-occurring conditions, including:
 - 1.2.1 mental health conditions;
 - 1.2.2 substance use disorders;
 - 1.2.3 non-emergent medical needs;
 - 1.2.4 intellectual/developmental disabilities;
 - 1.2.5 physical disabilities;
 - 1.2.6 non-acute traumatic brain injuries; and/or
 - 1.2.7 dementia and related neurological disorders.
- 1.3 individuals demonstrating aggressive behavior;
- 1.4 individuals needing urgent medication management services including prescribing necessary psychotropic medication for the stabilization of acute mania, psychosis or agitation;
- 1.5 individuals who are uninsured or unable to pay for services; and
- 1.6 individuals who may lack residency or legal immigration status.

CSUs will accept direct referrals from law enforcement, mobile crisis outreach teams, Emergency Medical Services, and other field intervention teams, including accepting individuals who may satisfy criteria for an involuntary hold due to danger to self, danger to others, or grave disability. CSUs serve to divert and/or decompress individuals from County and private hospital emergency departments and avoidable engagement with law enforcement and incarceration. This is accomplished through the development of an individualized plan for each individual served, focused on recovery and wellness principles that will promote successful re-integration into the community.

2.0 ADDITION AND/OR DELETION OF FACILITIES, SPECIFIC TASKS AND/OR WORK HOURS

- 2.1 Contractor shall provide County with the facility address where services are to be provided.

Upon receipt of this document, the Contractor is required to respond in writing to the County Contract Project Monitor within 10 working days, acknowledging the reported discrepancies or presenting contrary evidence. To the extent that Contractor acknowledges the reported discrepancies, a plan for correction of all deficiencies identified in the Contract Discrepancy Report shall be included in the response.

Contractor will further be required to correct the deficiency within 30 calendar days following the notice of deficiency, unless the County Contract Project Monitor determines that the deficiency cannot be completely corrected within 30 calendar days. If the date for correcting the deficiency is more than 30 calendar days following the notice of deficiency, Contractor will work with the County Contract Project Monitor to develop a plan that identifies corrective action beginning and completion dates. The problem shall be resolved within a time period mutually agreed upon by the County and the Contractor.

4.3 County Observations

EXPENDITURE CODING GUIDE

ONE-TIME MHSA EXPENSES AND CLIENT SUPPORTIVE SERVICES FOR URGENT CARE CENTER PROGRAMS

DMH has developed reimbursement guidelines for one-time expenses and startup costs associated with starting new Urgent Care Centers (UCC). One-time expenses are allowed during the first year in which a program is initiated. Program startup costs are only permitted during the first two months of the program's initiation unless prior approval is obtained from the DMH Lead Program Manager. Listed below is a coding guide for common expenses and their corresponding Service Function Codes (SFCs). It is important to remember that client-related expenses are unique to each client. Client Support Services (CSS) are client specific and are intended to cover the cost of services directly related to the client. The service provider is responsible for utilizing CSS funds in a manner that is clearly tied to the client's treatment and recovery goals as well as delivered to the recipient in the fiscal year in which they were purchased. Client support service expenses may not necessarily be limited to those listed in the categories below. Expenses that are not listed in this guideline require DMH pre-approval for reimbursement.
